BRAYAN VIDAL
DEVELOPER

PROFILE

Full Stack Developer with over two years of experience in developing comprehensive web applications, covering everything from database design to deployment on dedicated servers and modern hosting platforms.

Proficient in technologies such as TypeScript, JavaScript, React, Next.js, Node.js, Hono, Bun, TailwindCSS, HTML, and CSS; as well as experienced in database administration using MySQL, PostgreSQL, and MongoDB within Linux environments.
Strong understanding of collaborative development workflows using Git, GitHub, and Gitea, applying agile methodologies and project management tools.

In the interpersonal field, I have completed training programs in social skills, leadership, and teamwork provided by IBM.
